# PATENT ELASTIC FIRE & WATER-PROOF CEMENT ROOFING.

THE undersigned are prepared to introduce into use in Tennessee W. E. CHILDS & CO.'S PATENT ELASTIC PIRE AND WATER-PROOF CEMENT ROOFING, and ask the attention of Architects, Builders, Railroad Companies, and the public to examine its superiority over other Recoing. ARCHITECTS AND BUILDERS should not full to examine this Raofing, as it is better and obsaper than any thing in use. The material forms a hard and smooth surface that will resist the action of the atmosphere in every climate. It is impervious to water, elastic, and flexible. It contracts and expands with the changes of the atmosphere and sufficient and as to

phere, and will neither evaporate, crack nor rot; and, as to its durability, there is no question.

It is practically imperishable, and will perfectfully resist any ordinary external exposure to fire, as is abundantly proved, and we will warrant it water-proof. We will engage to put our Roofing on over ordinary good heathing, old shingles, tar and gravel, tin, sinc, expect, or iron roofs—it making no difference how steep or flat they may be—for seven dollars nor one hundred somers feet, it being far for seven dollars per one hundred square feet; it being far cheaper than any Roof of the old style, and we are sure it will give better satisfaction.
It will also be found to be the best thing ever invented to

cover or mend old leaky tio, tar and gravel roofs, or around chimneys, scuttles, dormar windows, and gutters, where the tin is rusted through. This Cement can be put on to last as long as stone, and form a perfect adhesion to any ob-ject to which it is applied. Tin Roofs can be painted over (and warranted not to leak) at two dellars and fifty cents per hundred square feet, which is cheaper and much bet-ter than paint. This Hoofing will be found to be the best theng for covering large Hoofs where they are exposed to fir — such as Steam Mills, Saw Mills, Factories, Rullroad Cars, Bridges, Depots, Station Houses, Steambout Decks, and, in fact, every kind of Roof where there is an external exposure from fire. As the Roof is perfect, without a joint in it, it presents no chance for fire to communicate, and any ght substance will burn out without igniting. where Childs & Co.'s Coment has been used, insure Build-ings with Roofs covered with this Cement, at the same rates as for those covered with Iron, Copper or Tin.

ith directions for using.

Orders sent to the undersigned, through the Postoffice, will be promptly attended to J. T. NATHURST, No. 24, Spruce Street. TESTIMONIALS AND REFERENCES.

The Cement will be furnished to those at a distance

OFFICE BUCKEYS STATE INSURANCE COMPANY, CINCINNATI, Dec. 16, 1856 TO ALL WHOM IT MAY CONCERN: This is to certify that have examined specimens and Roofs of W. E. Childs & Co.'s
"Elastic Fire and Water Proof Coment Roofing," and be lieve it to be eminently superior to any other kind of Roof ing in use. I was an eye witness of a severe trial of one of there Roofs from a large volume of flame from an adjoining building, which struck directly upon the roof and cornice for nearly half an hour. It stood the trial beyond all ex-pectation, and saved the building. T.M. HASKELL, President Buckeye State Insurance Co.

Having made considerable inquiry as to the merits of the
'Patent Flastic Cement Roofing,' introduced into this city 'Patent Flastic Cement Roofing," introduced into this city by Childs & Co., I flud it to be highly recommended in this city by many excellent judges; that it is meeting with very ready and general introduction; that its superiority over the tar composition Roofing is decided and freely admitted; and finally, I expect to adopt it for my next roof, which will be next aummer-having intended to use tin, but will try the virtues of the "Patent Elastic Roofing" as a substitute.

DEPARTMENT OF THE INTERIOR, WASHIN STON, D. C., 7 Feb., 1896. Their regulating action on the first is quick and recided, consequently they are an advirable remedy for derangements of that organ. Indeed, I have seldom found a case of bilious di-Sease so obstinate that it did not readily yield to them.

They have done my wife more good than I can tell you.
She had been ick and pining away for months. Went off

They afterwards cured her and our two children of bloods dysentery. One of our neighbors had it bad, and my wife cured him with two doses of your Pils, while others around us paid from five to twenty dollars dectors' bils, and lost much time, wi hout being cured entirely even then. Such a medicine as yours, which is actually good and honest, will be prized here. GEO, J. (HIFFIN,
